Refinancing a mortgage can make owning a home more affordable. It can decrease monthly payments and help make homeownership more sustainable. But it's often unavailable to borrowers who could see the most benefit.

RefiNow<sup>™</sup> is a new refinance mortgage option with flexibilities aimed at making it easier and less expensive for qualifying homeowners to reduce their monthly housing costs by taking advantage of today's historically low interest rates.

# HIGHLIGHTS

- **⊘** Debt-to-income ratio (DTI) up to 65%
- 𝔅 Interest rate reduction of at least 50 bps required
